

CHAPPLE BILL VETO TO STAND

Governor's Action Sustained In Assembly By Vote Of 53 To 18 Today.

TEACHERS WILL BE PENSIONED

Senate Has Concurred With Assembly In Retirement Fund Bill—Simon Smith Makes Eloquent Appeal.

(SPECIAL TO THE GAZETTE.) Madison, Wis., June 10.—Governor Davidson's veto of the Chapple bill for local instead of state taxation of the railroad ore docks was sustained in the Assembly today by a vote of 53 to 18.

Teachers' Pension System. The Senate concurred in the bill providing for the establishment of a state-wide teachers' pension system and appropriating \$50,000 out of the general fund for this purpose. Teachers are to contribute 1 per cent of their salaries. The Assembly concurred in the measure by a vote of 38 to 25.

Typical Union Soldier. After hearing an eloquent speech by Assemblyman Simon Smith of Deloit, the Assembly passed a bill providing for the creation of a status of a "typical Union soldier."

Slaughterers Appropriations. The Assembly is slaughtering the Senate appropriation measures, having already killed the bill to pay State Treasurer Dahl's expenses and those in the suits for reinstatement brought by discharged employees, as well as the bill providing for aid to livestock associations.

Up to the Governor. The Senate refused to return the city ordinance referendum bill to the Assembly, as requested, and the Assembly refused to return the Tracy oil-inspection bill to the Senate, as requested, putting both measures up to the Governor.

Hunters on Wolves. Hunters will still receive bonuses for killing wolves in Wisconsin. This was the decision of the assembly last afternoon on the Owen bill to prohibit the giving of bonuses by the state for the killing of wolves. Assemblyman Frank Lammi said it would be a serious mistake to discontinue the giving of bonuses. There were still too many wolves in northern Wisconsin, preying on the flocks of sheep. The assembly killed the bill.

May Abolish Regents. The assembly passed 478n increasing the salary of the bank examiner to \$1,000. It killed the local regulation to refer all matters for special legislation to the next biennial session of the legislature and have no extension of the legislature. After some debate it passed the resolution for a special committee of three senators and five assemblymen to investigate the educational question in the state. The plan sought to abolish the boards of normal regents, university regents and create some central governing body for the educational system in the state.

\$300,000 For Highways. With scarcely any debate it adopted the Haight amendment to the highway bill so that a fund of \$300,000 will be at the disposal of the state highway commission next year, when the law is enacted at the special session to begin the work of highway construction during the summer of 1910. The assembly rejected by a strong vote Rhinlander as a site for the next normal school in the state and then advanced the Thomas bill by a vote of 47 to 14, which provides that the next normal shall be located at Eau Claire.

Other Important Bills. 474n. Providing for the parole from Vauquien and Green Bay of persons convicted of felonies and misdemeanors under municipal ordinances. 569n. Villages with 200 inhabitants may incorporate.

Ordinance Referendum. The light by which the bill providing that all ordinances in cities shall be submitted to the people for referendum, the vote being required on petition of 10 per cent of the electors, was close indeed. Twenty-six senators were present when the measure was called up for third reading, and the vote was a tie, both on the motion for indefinite postponement and for amendment of the bill. In both cases Lieutenant Governor Strong carried the tie in favor of the bill. Concurrence was given the bill making it a birthday of \$100,000 for a hospital for the criminal insane, and amending the first clause to building docks and charge the cost to building property owners.

State Fair Park. The bill appropriating \$20,000 for the purchase of land for state fair park in Milwaukee was passed. This land is to constitute an addition to the present park.

Civil Service in Cities. The bill relating to civil service in cities of the first class, over which there was such a fight in the assembly, was killed, and the bill to change the September primary from the first Tuesday to the second Tuesday in September fell under a motion for non-concurrence.

Spanish Steamer Badly Grounded On Fire Island

The "Antonio Lopez" With 520 Passengers Lay on Beach Near New York Harbor All Night.

(BY ASSOCIATED PRESS.) New York, June 10.—The Spanish steamer "Antonio Lopez" with 520 passengers and a crew of 125, grounded on Fire Island last evening and lay on the beach all night, pounded by heavy seas. Early today wrecking tugs reached the stranded vessel, a life boat was launched through the surf and the work of transferring passengers to the wrecking tugs began. The steamer is still too high to permit passengers to be landed. The steamer is in no immediate danger. Most of the passengers are from Italian and Spanish ports.

Later—All the passengers were transferred from the "Antonio Lopez" to the tug "Relief" without serious accident. The "Relief" started for New York with the passengers early in the morning.

SOUTHERN VETERANS MARCHED IN REVIEW

Ten Thousand Veterans Who Wore the Gray Participated in Last Big Parade.

(BY ASSOCIATED PRESS.) Memphis, Tenn., June 10.—Ten thousand United Confederate veterans today marched in what was probably the last big parade in which they will ever participate. General Frederick D. Grant occupied the place of honor in the reviewing stand.

CONFEDERATE VETS ON PARADE TODAY

Old Soldiers of South Close Annual Encampment With March Through Streets.

(SPECIAL TO THE GAZETTE.) Memphis, Tenn., June 10.—What is universally conceded to have been one of the most successful encampments ever held by the United Confederate Veterans was brought to a close this afternoon with the annual parade. But one more event remains to complete the official program—the grand ball at the Auditorium tonight.

Tomorrow morning the veterans, their wives, sons and daughters, together with the thousands of other visitors who have contributed to the success of the encampment, will take their leave of Memphis. Hundreds of the veterans are preparing to go direct to Vicksburg for the unveiling there tomorrow of the Stephen D. Lee monument.

The parade today was the grand spectacular feature of the encampment. Through the gayly decorated streets the old campaigners of Lee and Jackson and Forrest and other great leaders of the '60s marched to the blast of bands and the pice and the roll of life and drum. At the official reviewing stand, where stood Governor Patterson, Mayor Malone and many other notables, the colors were draped and each division commander joined the Commander-in-Chief in the stand.

Along the line at every available point viewing stands had been built, while the windows and balconies of the homes were thronged with spectators. Main street from Poplar to Linden, was literally packed with a mass of enthusiastic humanity.

The day was a holiday in Memphis. City departments, the banks and many commercial institutions were closed. Long before noon persons began seeking the best places from which to view the parade, and when the signal was given for the start of the procession all of the downtown streets were congested with people.

Major Gen. J. H. McDowell, marshal of the day, and staff, preceded by mounted police to clear the way, led the parade. Following him came Gen. Clement A. Evans and staff. The Commander-in-Chief was greeted with enthusiastic cheers all along the line. Next came distinguished guests in carriages, and then the veterans, in the order of their regiments. The latter were arranged according to departments, as follows: Virginia, Forest Cemetery Corps, Trans-Mississippi, Missouri, Arkansas, Oklahoma, Pacific Division, and Texas. The veterans of the Forrest cavalry, mounted upon superb black horses, were loudly applauded.

Behind the old soldiers came the members of the Sons of Confederate Veterans. Following the Sons were a number of carriages bearing brigade and camp sponsors, made of honor and chaplains.

That the weight of years was on most of the veterans was apparent in furrowed cheeks and snowy hair. In halting steps and rounded shoulders, but that the old pride of achievement and duty well done remained was at once to be seen in the dogged persistence with which they followed their old flag and threw off their years to the strains of "Dixie."

EDWARD EVERETT HALE'S LONG CAREER IS ENDED

Chaplain Of The Senate And Author Of "The Man Without A Country," Died Today At Age Of Eighty-Seven.

(BY ASSOCIATED PRESS.) Boston, June 10.—Edward Everett Hale, preacher, publicist, man of letters, and chaplain of the United States senate since 1901, died at his home in Roxbury today at the age of 87 years. His health had been failing for some time and for the past few days he had been suffering with heart weakness, from which his death resulted.

He was educated at the Boston Latin school and at Harvard university, graduating from the last-named institution in 1839. After a course in theology he became pastor of the Church of the Unity at Worcester, where he remained ten years. Then for forty-four years Dr. Hale was pastor of the famous South Congregational (Unitarian) Church of Boston. In 1900 he retired from active pulpit work, but still retained a lively interest in church affairs.

Dr. Hale refused to be called a clergyman. He preferred to be designated only as a "Christian minister." He was a great lover of outdoor life and to this he attributed no great part of his splendid health in his old age. Geology and botany were his favorite amusements for years. His perennial love for children and youth also helped to preserve him from the ravages of old age.

The title of "Professor of American" to his generation has been usually used in referring to Dr. Hale, and it perhaps best describes his most conspicuous efforts. His entire career, his hereditary influences and environment and his natural inclinations and choice of friends, all tended to make him a patriotic American citizen, and fitted him to do for the American public what he conceived his "professor of America" as doing in a college—showing men that there is such a reality as American thought, that there are certain principles which belong to the American government, that there are certain feelings which are experienced by

EDGERTON NEWS OF PERSONAL INTEREST

Edgerton, June 10.—The social dancing party given last evening at Academy hall was not very well attended owing to the inclemency of the weather.

Dr. Sherrin of Walworth, and John Harlow of Janesville attended the dancing party last night.

Miss Inez Hoon, who has been taking a library course in Boulder, Colo., for the past year, arrived home early in the week.

Miss Sadie Nelson was a Janesville visitor Wednesday.

Owing to the disagreeable weather the entertainment of the high school by the seniors, which was to have been given at Josephson's resort on Monday evening was postponed and held at the home of Miss Florence Doty.

Tuesday evening, where a three-course dinner was served at six o'clock and the evening was pleasantly spent. The members of the class and faculty treated each other, and Miss Evelyn Post played several selections on the piano. It was a delightful evening and one to be long remembered by both class and faculty.

The class day program of the graduating class will be held this afternoon at Royal hall and commencement exercises will be held this evening, when twenty-three young ladies and gentlemen will receive their diplomas. This is the largest class, with one exception, the largest ever graduated from Edgerton high school, the class of '08 numbering twenty-five.

The annual banquet will be held in the parlors of the M. E. church Friday evening, which will conclude the school exercises for the year.

Mrs. Geo. Wesendonk, an old settler living north of town, died at her home at seven o'clock Tuesday evening of heart failure, at the age of 71 years. She was born in Holland and came to this country at the age of ten years and settled in Milwaukee. AT THE PLAY HOUSES

Elks' Big Minstrels. The Elks' second full rehearsal for the big minstrel show which is to be presented at the Myers theatre next Monday night passed off last evening without accident, though P. J. Mount, Harry McNamara, Ex-Alderman Fred Sheldon, Harry McClure, "Pat" Carlo, and Dr. Fletcher all had narrow escapes when one of the city boys supporting Diabolo P. E. Hurch's stupendous "Dip of Doom" apparatus unexpectedly parted in the middle of the performance. Frank Snyder, William McNeil, Louis Levy, George D. Simpson, Alvin Rehberg, Dr. W. D. Morrill, John C. Nichols and the other men were spurred to a proper degree of enthusiasm and abandon in their eccentric song and dance acts by the gigantic hook which is kept ever close at hand as a menace to self-consciousness. In volume and harmony the big effort is going to outdo all previous efforts in the singing line by several American leagues and for this the irrepressible swing and verve of the songs, themselves, will be in a measure responsible. Several of the "gags" which the committee of managers hung in the balance as "too personal" will be "just across the line," according to latest reports. Chief Appleby, however, states that this remarking to be seen, barring police intervention, another rehearsal will be held this evening.

Footville, June 10.—The Rev. J. B. Reynolds, presiding elder of the Janesville district, will conduct the children's day service at the Methodist church Sunday morning, June 13, at the usual hour for the morning service. An excellent program has been prepared, the children have been well drilled by competent leaders, and Mr. Reynolds will give a brief address suitable to the occasion.

In the afternoon of the same day Mr. Reynolds will preach at Mugdol, and at Janesville in the evening.

Will Head an Iowa College. Sioux City, Ia., June 10.—Rev. Dr. Luther Freeman, pastor of the Independence Avenue Methodist church of Kansas City, was elected president of Morningside college to succeed Bishop William S. Lewis.

Up to this time we have experienced a four-day run of local shooters went to St. Louis, Tuesday, to take part in a shooting tournament held there on Wednesday. They are A. J. Wagner, C. J. Mardock, J. B. Pierce, Ad. Fleek and Warren Niles, the latter only fourteen years of age. They came near carrying off all the honors. Wagner was high amateur with Pierce and Fleek close behind him. While in a five-day shoot they made the wonderful record of 124 targets out of a possible 125, which is close to the world's record. Each man won several special prizes. Wagner has entered for the grand American shoot in Chicago the latter part of the month.

MUSIC EASY TO FIND

Cabinet Keeps Sheets Sorted and Displays All Titles.

Have you ever tried to find a favorite music? If you have you know that the mythical problem of locating a needle in a haystack is a comparative task. Now comes a New York man with a sheet music cabinet that solves the difficulty. This cabinet is a three-story affair, revolving on a stationary stand. The compartments for the music are arranged in the form of steps and hold the sheets in a vertical position with titles of each showing above the titles of those below. In such a stand several hundred pieces of music may be kept without confusion and anyone can be found almost at a glance. To facilitate matters the sheets may be kept in alphabetical order or the vocal and instrumental music can be separated or both methods may be used in conjunction. Such a cabinet is convenient for use both at home and in music stores or conservatories.

RIPPLES OF MIRTH

Johnny Composes.

"My dear teacher has asked me to write a composition on Mr. Roosevelt in Africa, and I will say that he got tired of hunting Senators Bailey, Tillman and Foraker, and went to Africa to hunt something with more legs. He will be walking out some day and meet a lion. The lion will roar and call out:

"Who are you, and what do you here?"

"I am Teddy, and I am after your scalp!"

"Hare me!"

"I will not."

"And the lion then and there he murdered in cold blood and Teddy will whoop. Next day he will go out in his pride and meet a rhinoceros, and the rhino will squat at him and say to himself:

"There is a white man who seems to be running the show. I will butt in."

"And he will charge Teddy like an avalanche and strike him in the stomach and send him skyhigh, and a day or two later some natives will pass that way, and find the remains and say to each other:

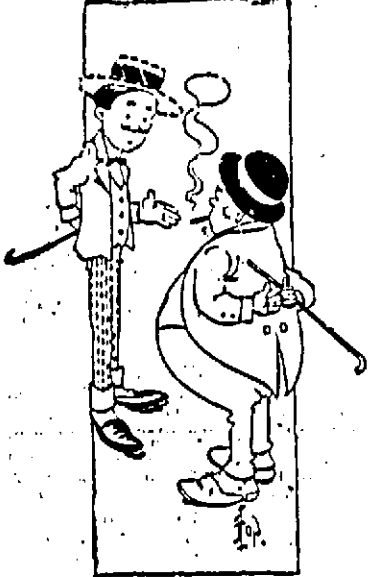

"He was a heap big Injun in the United States, but he didn't know Africa and the rhino."

"Yellow-pupils, be great, but don't be too great. When one is too great he gets it in the solar-plexus, and that is the end of him."

tions of the earth today a total eclipse of the sun was and is a portent of evil, of death and destruction. But to the astronomer it is a most glorious phenomenon which has opened up to him many new and beautiful revelations in the life history of our great luminary—revelations which are so closely, so intimately associated with the dwellers on this old round world. Raphael said in the long ago: Heaven is for those too high to know what passes there. He lowly wise, think only what concerns thee and thy home. Dream not of other worlds, what creatures there? But this doctrine, beautiful as poetry, stays not the mind of the astronomer who, with his great optic tube, is ever searching to learn what means that grand poetry, "God said, let there be light and there was light."

Town Booming Helps

I.—Cackle! Cackle! Cackle!

When Ambassador Choate went to England he made a reputation as a wit with one joke.

He sat at the breakfast table beside a sprightly young lady.

In England they serve soft-boiled eggs wrapped in a napkin. The young lady fumbled, and the egg fell to the floor.

"Oh, Mr. Choate," she cried in dismay, "what shall I do? I have dropped my egg!"

"CACKLE, my dear, CACKLE!"

It's a mighty good thing to do a little CACKLING once in awhile. CACKLE about your business, about the town you are living in. Let all the world know what a good thing we have here, and our town will grow.

ble of the old hen that observed that every time she CACKLED some one came and took the egg away. She thought it would be much wiser for her to hide her nest and keep quiet about it; and she did till a Sunday school picnic was organized. Her owner was asked to contribute, and he said:

"Well, that old hen is not laying any more, and I guess she'd do first rate for a frieze."

TO SHOW PHOTOGRAPHS

Album is Equipped With Magnifying Glass and Mirror.

A compact and interesting device for home entertainment has been invented by a New York man. It consists of a photograph holder which is at the same time an exhibitor, the whole being designed in the form of an album. The album is set on a stand, back down, and is divided into three compartments, the two side compartments for holding photographs and an electric battery, and the center division having a mirror and a lens in the front, with space between for inserting the views. This inner section is movable and can be adjusted to any position desired, the magnifying glass to the front enlarging the views and bringing out all the detail. An electric light, supplied from the battery in the storage compartment, illumines the exhibition chamber and enhances the general effect of the picture. For winter evenings at home this device can be made both instructive and entertaining with a collection of historic views.

ELECTRIC LIGHT INSIDE.

Hollanders Fond of Tobacco.

Tobacco in Holland is looked on with so favorable an eye that even ministers see no irreverence in smoking a pipe or cigar in church. They do not go so far as to smoke during service, but when showing visitors round the interior it is by no means uncommon for a minister to offer them cigars and to light one himself.

AIR FISH WASHING

Combined Dishpan and Drain Greatly Facilitates Drying.

The humble but important operation of dishwashing has been greatly facilitated through the genius of a Kansan. This device has been designed a combined dishpan and drain that will save both time and space, as it permits the water to drip off the dishes before they are dried. The device is made for use only in its dual capacity. The dishpan is cut away to allow one end of the drain trough to enter it. This trough rests on legs which give it a downward slant toward the pan and to the bottom is a rack on which the

WATER FLOWS BACK INTO PAN.

dishes are stood. This rack is ruled slightly, so that the water which drips from the dishes, glass, etc., runs back into the pan. In this way the dishes are rendered comparatively dry before the towel is applied to them, with the result that they can be completely dried much more speedily than when taken directly from the rinse water, and the towel does not become hopelessly saturated, as by the old-fashioned method.

A Difficult Question.

"How do you know that you are not crazy?" was asked the accused in a lunacy investigation a day or two ago. A prize might well be offered for a convincing answer to the question from one's personal knowledge. Lombroso and other eminent alienists have held that there is a taint of insanity upon some subject in every human mind; that no mind is absolutely and correctly balanced. No man sane upon several subjects will admit that he is crazy at all. How, as a matter of fact, does any man know, of his own knowledge, that he is not insane?—Savannah News.

Work of Russian Pennants.

Few of the souvenir hunters know that the gayly decorated and varnished wooden spoons and bowls sold in London as Japanese articles are really made by Russian peasants, who are adept in copying anything in this line. In St. Petersburg much of the famous enameling, on wrought and chased silver is done by boys only 12 years old. The spoons to be decorated are imbedded in clay on the tables they work on, with the design fastened near so that it can be plainly seen. The enamel for the purpose is brought from Geneva, and each article requires three bakings before it is complete.

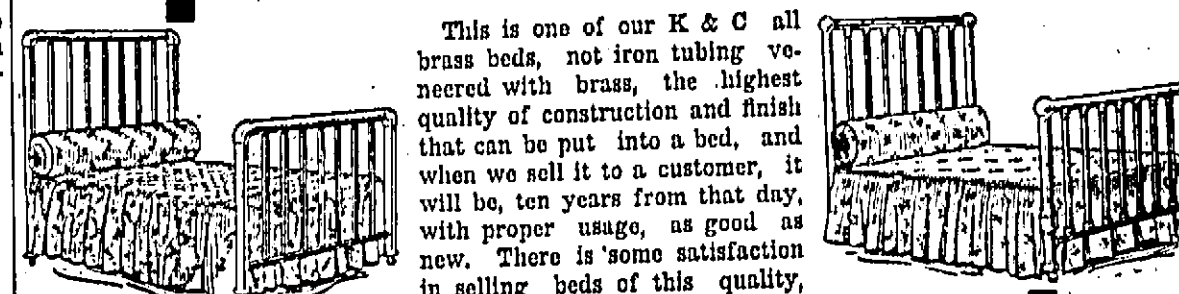

The Scenery Up the River

Is beautiful at this time of the year. Why not on an evening or a Sunday get away from the noise and grime of the city, go up the river, where nature has been most bountiful, where the air is fresh and pure, where you can enjoy yourself to the utmost? Our boats are at all times in top-notch condition and our men capable and experienced. Boats will be held on orders received in advance.

THAT'S THE REASON

VACATION REQUISITES

Ladies who are planning for their vacations may probably find it necessary to buy their dresses, skirts and suits ready made.

Nowhere are Suits and Dresses shown in larger, more complete and more up-to-the-minute assortments than we have brought together this season.

New things are arriving almost daily, so that you can feel assured that you are getting the newest things to be obtained.

We are receiving also some of the new fall showings in suits, and consequently are selling our spring suits very reasonably. In fact, that is stating it too mildly. We are making the strongest kind of inducements on all our spring suits, and there isn't a better collection of desirable suits to be found hereabouts. The difference in styles between spring suits and the new fall suits is not as marked as in former seasons.

Women who buy a suit of us that we bought for spring selling, will not make a mistake and the saving amounts to many dollars.

Ladies going on a trip want a suit that is stylish, up-to-date, and practical as well. You will find them here in endless varieties.

WOOLEN ONE PIECE SUITS

Light weight Panamas and Voiles. These are now styles, up-to-date and suitable for travelling dresses. They are in dark colors and will not show the soil. Neither will they wrinkle easily. They come in Copenhagen, navy, brown and tan, are very prettily made, well finished and will prove a bargain at \$10

WASH SUITS

We cannot bring too strongly to your notice our excellent line of Wash Suits. They are all new styles, are up-to-date. Some are plain tailored, some braided and others are trimmed with fine lace insertion. In linen, linen finish suiting, in linen pongee and cotton poplin. Full range of colors both in plain and stripes, ranging from \$6.00 to \$23.00.

WASH SKIRTS

We also wish to mention our white wash skirts. Something that every lady should have during the summer months. They are men-tailored, best styles and are a perfect fit and hang well. These are made over the same models as our woolen skirts. Some are plain while others are trimmed with embroidery and insertion, tucked or with buttons. They are especially good values, from \$2 to \$5.

COATS

Then, too, you will find here a variety of Coats and Jackets desirable for travelling purposes and general wear.

Black Jackets, Black Silk Coats, Rain Coats.

Also just received a beautiful new line of Covert Coats.

TOTAL ECLIPSE OF THE SUN JUNE 17, SEEN ONLY IN HIGH LATITUDE.

Diagram showing the appearance of the sun during the eclipse.

By DR. JOHN A. BRASHHEAR.

There will be a eclipse of the sun on the 17th of June, which will be of a very interesting character from the fact that for a few seconds it will be an annular eclipse, then change to a total eclipse, then back

years. For the latter records of very early dates we owe much to the Chinese chronology.

Unfortunately for us poor mortals, the interesting phenomena noted above occurs in such high latitudes that here we will not see either the annular or total phase of the eclipse.

The central line of totality commences southeast of Turin in Siberian Russia, travels eastward and crosses only a few miles south of the north pole of the earth and skirts the east coast of Greenland, where totality ends near sunset.

The eclipse as a partial phase of greater or lesser magnitude sweeps over the larger part of the North American continent, descending in size as it passes down through Canada and the United States.

At sunset on the 17th of June we will see the eclipse about as shown in Figure 2. Figure 1 shows it as the sun sets at the southern limit of Georgia. The other figure is an attempt to show the eclipse in its annular phase.

There is, however, all the difference imaginable between an annular and a total eclipse, for as long as there is the slightest ring of sunlight left the magnificent coronal and gaseous prominences extending at times to more than 100,000 miles from the solar surface are all hidden from view. But at the moment when totality occurs the corona and prominences burst forth in all their beauty—one of the most awe-inspiring sights ever witnessed by human eye. Indeed, when the weird shadow of the moon passes over the belt of totality, one feels as if some dread calamity is about to happen and no wonder that to the ancients, indeed, to the uncivilized na-

tion of the earth today a total eclipse

SOME years ago a famous specialist and expert in nervous diseases made some experiments to see what effect clothes had on the minds of his subjects.

He found that badly fitting or shabby clothes were more or less depressing; that if he put a man into good clothes, well-fitting, good style, of good quality, the whole man was "toned up," felt better, worth more to himself, to his work, to the community. It was clearly proved that clothes are an intellectual and moral force.

In that case, just think how much the general level of any community is affected and improved by such clothes as these Hart Schaffner & Marx suits we're selling. You may not have realized it before, but this store is doing this town a lot of good by bring such clothes here.

Suits, \$18, \$20, \$22.50, \$25, \$28, \$30

In our Milwaukee street display window are some very attractive pictures, reproductions from the pens of famous artists and very pat for the season. You will enjoy looking at them. "The Ball Game," one of the best of Samuel Nelson Abbot's, a characteristic illustration of America's greatest sport, "Reading the Declaration," another of Abbot's pictures, an illustration of the good old fashioned Fourth of July celebration. "The Marathon Race," by Abbot also, graphically shows the victor in the final desperate spurt of speed and endurance.

These pictures were all made for Hart, Schaffner & Marx and are worth coming to see.

Luckily for the Captain.
Captain (explaining a yarn)—I was for eight days a prisoner among the cannibals. Lady—And how was it they didn't eat you? Captain (entirely)—Well, the truth was the chief's wife had mislaid her cook-book.

POLITE ATTENTION.
Pain Patient—feet quite worn out, doctor. The incessant ringing of those church bells has got on my nerves.
Doctor—We'll remedy that. I'll have straw laid down in the street.

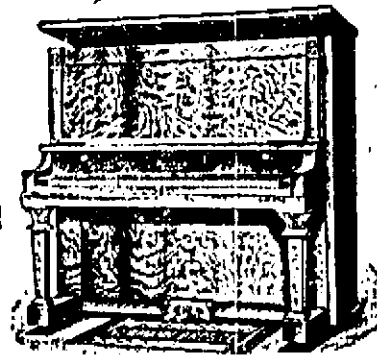

DIFFERENT.
She—Did he say he knew me when I was a girl?
He—No; he said he knew you when he was a boy.
